

With a mile of history

NEWSLETTER

Welcome all back to 2011.

With the season progressing strongly we have upcoming developments where we are seeking the services of a gas fitter / plumber to help install a new hot water system to our shower block. Please contact Scott Wait for details.

24 Hour trial for 2011. We have a control at Sutherlands control 14. Anyone interested in joining us for a fun filled night of record keeping and or socializing we welcome you aboard. Please see Scott Wait for more details.

August 7th we are hosting a state round of the ASA and any senior solo riders are welcome to join for a support class of All Powers. Pre entry is required and entry forms are available on the MSA website.

For those of you who miss our end of day presentation, we invite you to stay just for half an hour extra to give the kids a chance to speak in front of a crowd while thanking their family's and sponsors for helping them achieve their goal in obtaining a podium finish and accepting their ribbons. Also there is at every round, a rider of the month trophie presented at the Committees discretion which could be your child.

Track changes were discussed at the Committee meeting and any further input from you, our members would be greatly appreciated. Please see any committee member.

Presentation Night for 2011 is going to be well worth attending. Keep 19th November free as we will be holding a coaching morning allowing your kids to get signed off for their license renewal next year, then in the afternoon the track will be open to all beginners, parents or friends to ride with a \$20 recreational license and anyone else who holds a license and would just like a ride.

Menu and attendance forms for the presentation will be available soon for catering. Camping will be available at the track.

We all hope everyone has a safe ride for the rest of the season and we thank you very much for supporting the Morgan Motorcycle Club.

President
Scott Wait.
